Dear Mr. Zappa:

Thank you for your faxed message to me dated February 10, 1993. I am overwhelmed and delighted at the great public response to the creation of the Office of Alternative Medicine at the National Institutes of Health.

Your comments concerning the work of Dr. Dean Kraft are duly noted along with other letters of support. Please be assured that we will try to be diligent in attempting to pursue our evaluations of unconventional healing practices.

Again, thank you for your comments and best wishes on your journey to recovery.

Sincerely,

Joseph Jacobs, M.D., M.B.A.
Director, Office of Alternative
Medicine
