Dear Dean,

How can I ever thank
you for clearing up the silicone
in my left eye (from the shot in
my cheekbones which traveled into eye)
Six doctors told me there was
no hope, & I would forever have to
wear black glasses to cover the
mutilated eye.

Only ~~three~~ treatments with you
Dean, and my eye is clear and
perfect. You are indeed wonderful, and
there are no words to express my
gratitude.

God Bless you,

Merial (Saltbury)
